

Technology Check for Students

Things to Know

- ❖ All students who have Klein Windows devices and are going to participate in Klein ISD Online will need to visit a Klein ISD campus, prior to school starting, with their device and connect to the Klein network in order to get the latest updates for their devices. This process can take up to 15 minutes and should be done within close proximity to the school where wireless signal strength is optimal. When arriving at the school please connect to the Mercury A network and perform a restart on your device. The restart may take a few minutes to come back up to the logon screen at which point please log back into the device. Once logged back into the device please open Software Center to check for updates that need to be installed.
- ❖ Pre-Kindergarten & Kindergarten students and new students to the district will have a default password of s+ID (i.e. s123456). The password will need to be reset before accessing Digital Resources.

Step 1: Log in to Device

If you are using a personal device skip to STEP 2

NOTE: If you do not remember your password you can reset your password on a Chromebook. For Windows devices, please submit to the Student and Family Tech Support form. Resetting the password on a Windows device will require a trip to a Klein ISD campus to complete the reset.

Log in to Device

NOTE: If you are using a personal device **SKIP** this slide

Step 1: Open device

Step 2: Log in to device

Username: S+ID number

Password: Klein Network Password

Chromebooks

Windows Laptops

NOTE: If you do not remember your password please submit to the Student and Family Tech Support form
